DORRANCE ALLEN GIVEN SENTENCE IN JAIL.

Must Be Imprisoned for Five Months for Coleman Assault.

On Monday evening, Judge Fanning sentenced Dorrance Allen of Rome to pay a fine of $15, costs and to undergo an imprisonment in the county jail for a period of five months. Allen was convicted at the September term of court for assault and battery committed upon Henry H. Coleman of Rome. The jury recommended him to the mercy of the court.

Coleman was so badly injured in this assault that his life was despaired of. The defense claimed that the assault was merely a fight in which Coleman was the aggressor and that Allen had used only such force as was necessary to protect him from harm at Coleman's hands. The commonwealth claimed that he used violent means far beyond what was needed to protect himself.

Lilley & Wilson, the attorneys for Allen, made a hard fight on Monday to have the court suspend sentence on him. While there is sympathy for Allen in that the assault was provoked there are many who think that his treatment of Coleman was altogether too brutal and will deem the sentence a just one. Allen was allowed to go to his home at Rome in order to attend to his affairs. He will come to Towanda on Tuesday of next week to begin his sentence.

TOWANDA BOY CHARGED WITH INCORRIGIBLENESS.

Claimed That Louis Chilson Got Money Fraudulently.

District Attorney Charles E. Mills of Athens on Thursday filed a petition in the prothonotary's office praying the court to confine Louis Chilson, the thirteen year old son of George Chilson of Bridge street, Towanda, in the house of refuge for the boy's welfare and for the benefit of his morals. The petition alleges that young Chilson is a nuisance to the pupils and teachers of the public schools, that he is beyond the control of his father and that he is regarded by those who know him as a common thief.

The matter came up before the court yesterday morning but after a number of witnesses had been examined the hearing was adjourned until Friday. Chilson is a slight built boy, of rather prepossessing appearance. His mother sat in court with him during the hearing.

Young Chilson has been involved in several cases of theft and obtaining money under false pretenses. The exploit that has of late brought him to reckoning was his planning a fake supper at the First Baptist church in Towanda and soliciting money from many houses for that alleged purpose. It appears that he went to houses and said that the church was going to give a supper to poor people and presented a box sent out by a Baptist board of publication. In this he gathered nickles, dimes and quarters.

He came to grief in this wise. A lady who had given him a contribution was telling a member of the Baptist church about the boy collecting money for the supper. The church member knew of no such supper. He communicated with Rev. Francis Tuck and they began looking into the matter. The boy was confronted but in a lawyer's office he made such a stern denial that the attorney was convinced of his innocense. But even after this and after Chief of Police Miller had seen young Chilson he still solicited for the supper.

When he was much younger that he is now Chilson stole a $5 bill from a neighbor, tore it in two, then burned one piece and presented it at a Towanda bank for a new bill. He was refused and later confessed to the police that he had stolen the bill. After this he stole cigars and fireworks from the barn of Mrs. Alice Titus and sold them at cut rates down town. Then he became imbued with a scheme of cleaning cuspidors and stealing stamps from his patrons. This he did for a while until caught. He admitted the theft. He is also suspected of taking some dates, candy and figs from Westbrook's store as some was missed from there and the boy had some of the same brand as carried by the store, the only place in town buying that brand of goods.

BUILDING A TOWN.

E. E. Quinlan, Formerly of Towanda, Is to Be the First Mayor.

Papers are being filed in the state of North Carolina for the incorporation of a new town to be called Hazelwood, and in the incorporation paper it is stated that the mayor of the place is to be E. E. Quinlan. Mr. Quinlan is the former principal of the Susquehanna Collegiate Institute but has for several years been a resident of Waynesville, N. C. The new town of Hazlewood is just outside of Waynesville.

It is understood that Mr. Quinlan has purchased 33 acres of the land and will be one of the chief promoters of the new enterprise. Mr. Quinlan has been very successful in his business enterprises in the South. He is engaged in lumbering on a large scale and has taken a very prominent place in the business and church interests of Waynesville. He is a director in one of the banks and a trustee of the Presbyterian church. His many Towanda friends will extend best wishes to the first mayor of Hazlewood.

TOUCHED FOR BIG MONEY.

Smithfield Man Falls in With Thieves at Burlington.

E. W. Mitchell, who lives in Smithfield township, was returning home on Saturday night at about midnight from Burlington when he discovered that both his pocketbooks were missing. He had considerable money with him and it is believed that it was stolen from him.

In one pocketbook Mr. Mitchell had twelve $20 bills, three $10 bills and one $5 bill. He also had a 20 shilling gold piece, dated 1843. In this pocketbook were also three notes of $200, $100 and $20 respectively. In another pocketbook Mr. Mitchell had an amount in silver and three receipts from George Hall. Mr. Mitchell is a lumber contractor and farmer and it is said that the large amount of money which he had with him was the proceeds from a sale of a team. He intended to take the money to an Athens bank to deposit it.

Feb. 22 Exercises.

At the meeting of Watkins Post No. 68, G. A. R. on Saturday afternoon it was decided to have the usual Washington's birthday exercises.

THOUGHT TO BE RABIES

Dog Shot Here by Chief of Police Miller Thursday.

BIT SEVERAL OTHER DOGS.

Towanda Board of Health Took Immediate Action Prohibiting All Dogs From Running at Large Under Penalty of Being Shot.

Thursday morning a large hound, white in color with dark spots, created a great deal of excitement on the streets of Towanda and before it was shot by Chief of Police Miller it bit seven dogs that are known of and it is the opinion of the police that more may have been bitten. The hound was seen near the postoffice at about 8:30 where it bit two dogs belonging to George Smeaton. Later it was seen on York avenue and at about 10 o'clock was near the Methdist church. Here Chief Miller got track of it and at the foot of Weston street fired three shots at it. He missed the dog and it continued its course, biting and snapping at twigs, fence palings and every dog into whose path it came.

It ran near the First ward school building and as the children were at recess the chief telephoned to have them called in. The dog ran south of the school and bit two dogs one belonging to a Mr. Hoffman, who lives near B. T. Hale's and an unknown dog. Chief Miller finally secured a shot gun and shot the dog in the head as it was running in the yard of M. E. Lilley's place on South Main street. Besides the dogs mentioned it is known that dogs belonging to Mrs. West of the New Park hotel, James Bennett and Ed. Middaugh were bitten. The Hoffman dog and the unknown dog were immediately shot by M. H. Lines. Among those who assisted in the chase of the mad dog were Special Officer Allen Woodin, Special Officer Hudson of Athens, Daniel Kirwin and others.

Board of Health's Action.

The Towanda board of health at once took the matter in hand and held a meeting at the council rooms Thursday afternoon with Dr. Francis Chaffee, Dr. C. M. Woodburn and E. Ashmun Parsons present. The report was heard and a resolution passed as follows:

Whereas, report has been made to this board that on January 19, 1905, a dog having the symptoms of rabies was killed after having bitten several other dogs in this borough,

Therefore, be it resolved, by the Board of Health of the Borough of Towanda, That during the sixty days next following the legal publication of this resolution the Chief of Police, constables and other police officers of this borough be directed to kill all dogs found running at large on the streets of this borough not muzzled and under the control of an attendant with a chain or cord.

It was also ordered that Secretary M. E. Miller have Dr. R. G. Rice make a post mortem on the dog killed by Officer Miller and that portions of the dog such as the brain and other parts that may be affected be sent to the nearest Pasteur institute for examination.

As is usual in cases of vicious and mad dogs there is a great deal of discussion as to whether the dog killed on Tnursday is affected with rabies. The board of health has decided to take no chances and ask that all public spirited citizens obey the provisions of the resolution until it can be fully ascertained whether the animal was mad. The police will rigidly enforce the resolution and all dogs found not complying with the resolution will be killed.

HEAD AND NECK OF DOG SENT TO PHILADELPHIA.

Over a Dozen Dogs Known to Have Been Bitten in Towanda.

Friday afternoon, Dr. R. G. Rice performed the post mortem on the dog shot on Thursday morning by Chief Miller on suspicion of its being affected with the rabies. The head and neck of the animal, containing the brain and part of the spinal cord, were shipped by express Friday to Dr. Ravenel, the state bacteriologist, at Philidelphia, who will make the examination for the local board of health.

There was a noticeable absence of dogs on the street yesterday. There is also said to be a dearth of muzzles in the stores that keep these articles. Continued discussion goes on as to whether the dog was really mad, and continually increasing lists of dogs that the hound bit are received by Chief of Police Miller.

CHILDREN OF MR. AND MRS. WRIGHT TO BE CARED FOR.

County Will Look After Their Needs on Account of Neglect.

The children of Mr. and Mrs. Adelbert Wright were brought into court Thursday afternoon under the act of 1903 concerning neglected and dependent children. After the hearing the children were committed to the care of County Commissioner M. J. McNulty. It is understood that two of the children have already been found good places for and the third one of the children will easily be provided for.

Besides the three older children, in court was a three-months old baby of Mr. and Mrs. Wright. It was a pitiful object, its features weazened and its bones almost guiltless of any fat. It resembled the photograph of a starving child from India or a Cuban little one in the days of Spanish misrule. The testimony of a physician was given that the child was suffering from lack of nutrition and want of proper food.

An attempt will be made to have Mrs. Wright and the baby go to the county house. The Wrights have always opposed going there heretofore but the baby's life will depend on warmth and good food and its mother may see her way to going to Burlington for the sake of the little one. Testimony was given that the house of the Wright's here is often without a fire and that the neighbors have found the children not only cold but hungry, with a larder absolutely devoid of food.

Mrs. Wright has recently had her arm broken in a fall in the street and admitted that in this condition she was unable to provide for her children and was willing that others should do so, although she had friends who would take them, she said. Mr. Wright is a man who, for some reason or other, never seems to have profitable work. Between this condition and that of Mrs. Wright, the children have had a hard time. The three older children are bright and attractive and the neighbors of the Wrights have been asking that they be suitably taken care of for some time.

Mr. Wells has been in Towanda for two years and there will be general regret at his departure. He is not only an excellent prescription clerk and window decorator, but as tenor in the choir of the First Presbyterian church has been invaluable. Mrs. Wells has also made many friends here and is an artist of unusual ability.

A Good Suggestion.

The Corning Journal advocates the prohibition by city ordinance and its enforcement, of the habit of distributing about the city of the so-called "medical" pamphlets thrown about the streets of our cities, which contain evil and debasing statements and suggestions, and are especially corrupting to youth.

Mr. Gordon a Candidate.

W. G. Gordon of Towanda, who six years ago was a candidate for the Republican nomination for prothonotary of the county, is again a candidate for the renomination. He is making a thorough canvass and has the advantage of his work in the previous campaign for the office.

BISHOP TALBOT HERE

Made Annual Visitation to Christ Church Sunday.

CLASS OF NINE CONFIRMED.

Delivers Instructive and Elevating Remarks to the New Communicants of the Church—Interesting Sermon Preached.

Rt. Rev. Ethelbert Talbot, bishop of the Episcopal church for the diocese of Central Pennsylvania, paid his annual visitation to Christ church, Towanda Sunday. In the morning he officiated at the confirmation service at which nine persons were taken into the church. The confirmation service in the Episcopal denomination is a most impressive and beautiful one. During the singing of a hymn the applicants for confirmation advanced to the chancel where the bishop laid his hands on the bowed heads in turn, repeating the prayer of blessing: "Defend, O Lord, this thy child with thy heavenly grace; that he may continue thine forever; and daily increase in thy Holy Spirit more and more, until he come unto the everlasting kingdom. Amen."

He welcomed the class to the church and expressed the deep interest that the rector and congregation would feel in the personal welfare of each one who had thus openly united with God's cause here on earth. He said that there was no satisfaction in the world equal to that of religion and that its blessing of strength and cheer would be more felt and appreciated as the years went by.

Morning Sermon.

The sermon delivered by Bishop Talbot after the confirmation was from the text "And God led them not by way of the land of the Philistines although that was nearer." The general theme of the sermon was the inscrutable ways of God, inscrutable often to his people but turning out for the highest and best good of those who are affected.

He sketched how the Israelites were 40 years in getting out of Egypt whereas in a direct journey they could have gotten to Israel in five days. God took them on the long way because the direct way was through the lands of the hostile Philistines and because the people needed to be educated by the years spent in the wilderness, before they came into the full sunlight of his love.

Thus in our life of today the wonders of coal, steam, and electricity lay buried in the earth and beyond the understanding of man until he was ripe to master their forces and harness their power. Christ's coming was delayed for centuries and the old religions were the wilderness in which the new spent its 40 years. The conversion of the world is another illustration of the slowness of some of God's ways and yet now there is a magnificent and wonderful crisis of missionary effort at hand.

The lesson of the sermon was that we are all in God's hand and this world is a school of heavenly culture and learning. The text is a sermon on patience, bravery, courage and faith. Eternal justice will prevail and his people will emerge from darkness and death into peace and glory.

Miss Charlotte Young sang a soprano solo at the service and took the solo part in the offertory anthem. Bishop Talbot also addressed the children of the Sunday school at the usual exercises and preached at the church in the evening at 7 o'clock. There were large congregations at both services.

DEMOCRATS WILL NAME BUT ONE CANDIDATE.

McNulty's Forces Dominated the Meeting of County Committee.

The Spring meeting of the Democratic county committee, held in the court house Thursday afternoon was the best attended meeting of that body within the memory of this generation of Deocrats. It was all due to the factional struggle between Commissioner M. J. McNulty of Troy, who seeks renomination and desires to be the only candidate on the Democratic ticket, and Job Griffin of Athens, candidate of the segment of the party who desire a full ticket named. It resulted in the unqualified victory of the McNulty forces and the Democrats will nominate but one candidate for commissioner or auditor.

The meeting was called to order by Chairman Carroll at 2 o'clock, and it lasted an hour and a quarter. Committeemen to the number of 43 answered the roll call and there were 13 substitutions.

J. W. Beaman, Esq., of Athens, reported for the committee on revision of party rules that nothing had been done.

The time for holding the Fall primaries was fixed for Saturday, Aug. 26, and the county convention for the following Tuesday.

A resolution was adopted that each candidate for county commissioner be required on qualifying to pay a fee of $10, and that the candidate who shall receive the nomination pay a further fee of $20, all to be used by the committee.

C. L. Heverly of Towanda, and A. D. Stephens of Sayre, were named as delegates to the State convention.

The real business of the meeting appeared when F. T. Bull moved that two candidates for county commissioner be nominated at the Fall primaries. The roll was called and the motion defeated by a vote of 32 to 24. The decision provoked applause from Mr. McNulty's friends. By an equally decisive vote it was decided to name but one candidate for county auditor.

If a body of water can be possibly kept as a lake it should be, but if for much of the year it becomes an unsightly swamp, the bulrush home of frogs and mosquitoes, it should by all means be drained and utilized as meadow or farm land.

The farmers of some sections of the south propose to set fire to a part of their cotton crop and burn it up to thus reduce the supply and keep up the price. Fools are these. The prospect is that the boll weevil inside of three years will make the crop short enough without burning it up.

If some man will discover a simple remedy for preventing the borer from destroying the black locust tree he will confer a wonderful blessing on the arboricultural interests of the country, for none of our forest trees possesses so great a value for post timber or is adapted to a wider range of soil, latitude and climatic conditions. As it is, it is simply useless to plant this tree.

We have a friend who lives in a small country town. He keeps two Jersey cows, and it is needless to say that he gives them the best of care. He told us recently that his cash returns from these two cows, aside from what butter and milk he and his wife used, was $150, mostly from the sale of the milk to town patrons. A man with cows of that sort, a good garden and a few hens could live pretty easy.

When a poor old horse has reached the limit of his useful life we think the law ought to step in and take such as are traded off to that class who by dint of whip and club will try to pound out a few more days' work before the patient and faithful animals drop dead on the street—take them and mercifully kill them. We favor the development of the plan of using horse meat as food for the sole reason that were such the practice it would secure for the old horse at least good food and care during his last days and a merciful death.

It is quite a common thing for horsemen to refer to the horse which does not keep his end of the whiffletree up as a lazy horse, one not doing his fair share of the work, when the truth is that whenever a horse thus hangs back and causes the doubletree to deflect from a right angle line of draft that horse is pulling more than his share of the load, as such a position shortens his end of the doubletree and lengthens that of the other horse correspondingly. The lagging horse should not be whipped up to make him pull more of the load, but rather that he may not have so much to do.

There should be a small orchard on every farm, enough trees to supply the family with an abundance of good fruit. The kind and variety of fruit which should be planted will vary greatly with latitude, altitude, soil and location. Some varieties of plums and apples will grow upon almost any farm in the United States, save possibly the semitropical sections. Peaches may be grown in thousands of places where none are now produced. Given a sunny hillside and intelligent care, the grape will load down the vines from Texas to Winnipeg. The strawberry is at home everywhere and is by all odds the most accommodating fruit of the whole list of horticultural luxuries. Fruit, especially that raised by the eater, is to living what art is to business—the refined essence of toil and effort. Boys who have to steal apples in order to get them sometimes grow up to be good men, but this temptation should be removed from them.

We passed a model farm home while riding on the train the other day. Here is what we saw: The farm contained, as we could judge, about eighty acres. It was well fenced and under a good state of cultivation. The homestead was the most attractive feature; the barn and other buildings were removed from the home lot by a lane bordered with trees, the buildings were neatly painted and the fences in good repair. The house was not large—perhaps contained six or seven rooms. It had a pretty porch, with vines trained over it, with flower garden and lawn fenced in to keep out the pigs and chickens. There was a half acre devoted to small fruits and garden, an acre of orchard trees, and inclosing both home ground and farm buildings on the north and west was a fine evergreen grove. There was an air of neatness, care and taste about his whole establishment that could not fail to attract the attention and favorable comment of every passerby. It was almost impossible to believe that there was a mortgage on this farm or that any other than a happy family were sheltered within the walls of this pretty farm home. What this man and woman have done in beautifying their home at really a small outlay of money is what should be done to the thousands of farm homes where the chickens roost on the veranda, where the garden is a weed patch and the orchard dying from neglect. If men could learn how to make their farm homes beautiful and attractive, wives and mothers would naturally be more contented and the children would not want to leave the farm the first chance they got.

THE PRAIRIE POND.

We have a good friend who has a love for nature and for nature's things, who has created a woodland pond right out on the prairie, which aside from its practical usefulness affords him an endless amount of pleasure. He took a muskeg swamp, one of those rat house sloughs containing about one fourth acre. During a dry time he went at it with plow and scraper and scooped it out to a depth of from four to five feet, piling the excavations around the edges. He then planted a variety of trees and woodland shrubs and vines on the edges of the pond, which soon was filled to the brim with water. As soon as the trees began to grow the birds found the place and sought the prairie oasis for its water, shade and protection—water as well as land birds The heron, the teal, the waders, the snipe and woodcock dropped in, while blackbird, robin, oriole and thrush fell in love with the place. Our friend has a quiet hiding place on the banks of the pond, where he loves to go and watch his many feathered friends, and what with them and vagrant insect life, butterfly, moth and bee, the rabbits and squirrels, he gets more for his money invested in this prairie pond than any other investment he ever made. When winter comes he fills his ice house and supplies his neighbors. Some of his neighbors call him a fool; we regard him as a very wise man.

A lot of scholars in a Michigan country school to whom the rat was one of the most familiar animals to be seen on the farms all had the notion that there were hairs on the rat's tail. At the request of their teacher they undertook to find out how this was by catching the rats and were greatly chagrined to find out that there were none. Children are being well educated when they are being taught the why and the wherefore of the things around them with which they are familiar, and the best of it is that they will always take a delighted interest in this sort of instruction.

If weeds are simply a useful plant out of place there is all too much misfit and disorder in the vegetable kingdom on most farms. Weeds rob the soil and lessen the crop; they intensify the effects of drought by absorbing moisture needed by the crop; they are always and ever interlopers, parasites, freebooters and pirates; that they grow rank and luxuriant may be evidence of the richness of the soil, but they are none the less to the farm what the woman of the street is to the municipality. It is a mighty good job for the winter evening on the farm, both for the young folks and the old man, to take up intelligently a study of the weeds which plague his life out all summer long. It is worth something to know each weed, its name, its habits, its longevity, its method of seed distribution and propagation, the best method of holding them in check, for on most farms weeds are the biggest tax imposed upon the farmer—a tax for which he receives absolutely nothing in return.

While we are all busy cussing the trusts and combines it is well enough to stop and think for a moment what this country would or could do without the organized markets of today. Old settlers tell us how they hauled loads of dressed hogs and grain forty or fifty miles to some river point and had to take just what the local storekeeper would pay in trade, which often compelled them to sleep out under the wagon going home if they would have anything to take back. The glutted market and the absolutely unsalable farm product were very common things those days. Kick and kick hard as we do over what we call the tyranny of the combines, there is this to be said—that no matter how great the volume of stuff offered it is all readily taken and absorbed by the finely organized markets of today, and a lowered price because of the plethora is the only cause of complaint. The organized market in the long run secures for the producer very much better prices than would be possible without such organization when competition got in all its merciless work. Organization equalizes prices and the distribution of commodities, and while the middleman who engineers this process sometimes levies too heavy a toll for his services it would be, after all, a return to the dark ages to substitute for the present organized market the happy go lucky and hit and go miss commercial methods of fifty years ago.

Animals in some ways are possessed of lots more sense than are men. For instance, neither birds nor animals ever fight with others of their kind for possession of a given territory or for a supply of food. On the contrary, let a buzzard, a crow, a sparrow, a blackbird or, for that matter, any sort of bird or wild animal find a supply of food, and by some mysterious system of telepathy others are quickly informed of the fact and always extended a cordial welcome to the feast. Men won't do this. Individually and collectively they will fight each other to a finish to retain a selfish possession of their discovery, and this with their own kind. Then, again, birds and animals will never get so starved that they will deliberately eat each other—they will die first—but men are cannibals in such a condition. If there were as much brutal and useless strife and warfare among birds and beasts as among the human race, there would be no birds or beasts. Again, the instinct of wild life is vastly superior in many ways to man's best intelligence. A pigeon will fly a thousand miles over an unknown country to reach its home; a tiny warbler will travel from Canada to Mexico safely and do it every year; a dog or a horse or a cat never becomes lost; the bird and the animal and even the bee and the ant will make a wise provision of stores for a long winter, while many a man lacking this sort of sense has to starve and freeze. Man, while lord and master of all, is still, when run down and analyzed, one of the poorest developed brutes of the entire animal creation.

MAN'S LOVE OF NATURE.

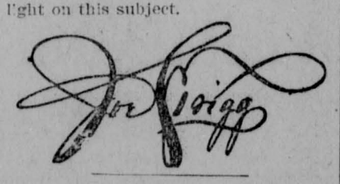
Most men have a latent love for nature, the soil and its products, no matter where they live or what they do. Thus the city man takes to parks, shrubs and flowers, to lawn and trees for his city home, and, limited as opportunities may be for nature study, there is still nothing which insures a more intense and lively interest among city children. This inherent love for nature and nature's works opens an almost unlimited field for exploitation and is never undertaken, no matter how crudely, but it rewards every effort a hundredfold by promoting an interest in the common and practical things of human living and its refining and wholesome influence on humanity. No better reform is now in progress, viewed from an aesthetic, sanitary and civilizing standpoint, than that of teaching city people how they may clean up, beautify and regenerate their back yards. The utilization of vacant city lots for gardens, worked by the very poor of the municipality, not only converts unsightly patches of weeds into beauty spots, but in a direct and helpful manner ministers to the comfort and happiness of those so engaged. It is passing strange that just where one would look for the evidence of this refining and cultured work, where every natural facility was waiting to promote it, there is where the least of it is to be found, and that is on the farm homesteads of the country. With ample room for grass, vine, fruit, flower and tree, there may be found the most dreary, forbidding and uninviting surroundings. Energy and business enough, plenty of work and push in the raising of hogs, corn and cattle, plenty of money and opportunity, but with it all an utter lack of appreciation of what might be done at so small an expense in the beautifying of the home, which really, for a fact, represents to every man about all there is worth working for, for no ownership of broad acres, no generous bank account, no thrifty herds of cattle and swine, count for very much if the home is only a place in which to just eat and sleep—a human cattle shed. The most delightful and attractive homes of America should be found on the American farm and will be some day when the renaissance of agriculture comes. Any farmer who will study this problem of making his farm home beautiful and express in the new and better way with tree, shrub, plant, flower, vine and lawn that refinement and culture of taste which are so easily possible will by his example do far more for the community in which he lives than he could as a member of the legislature or as the bishop of his church. John Bunyan pictures a character in his "Pilgrim's Progress" bowed to the ground, eternally working with an old muck rake in the pursuit of money, while an angel floated just above, but unseen by him, with a golden crown for him if he would only look up. You men who live day by day in dreary and desolate farm homes, who see at your fireside a wife and children with every refined taste and aspiration crushed out of them in your hog and corn race for bank deposits, look up!

Somebody has figured out that the crop of the United States this year will give every man, woman and child in the country 1 barrel of flour, 28 bushels of corn, 200 eggs, 140 quarts of milk, 70 pounds of cotton, 6 pounds of wool and leather enough for two pairs of shoes. No other country can show such a record.

There are three spreads which the beef producer must needs watch closely. There is the spread between the price of the corn which he feeds and the price he is likely to get for his finished cattle, there is the spread between the price which he pays for his feeders and what they will bring him when sold, and then there is the spread between what he can get for them and the top of the market.

FARMS AND COAL MINES.

We came across an interesting fact recently, one which was entirely new to us. It is claimed that where a farm overlies a coal measure at a depth of of, say, from 100 to 200 feet and the coal is removed, leaving a network of galleries and excavations under the farm, the productive capacity of the land is thereby impaired to the extent of from $20 to $25 per acre, this because the capillary system of furnishing moisture to growing vegetation is seriously interfered with and such land in a dry time suffers much more from the effects of drought than other lands not so treated. While this may be so or not, the fact is believed in sufficiently to show that it really affects the selling value of such lands. It would seem, admitting it as a fact, that there would be largely compensating benefits in a wet season, for it would be a poor rule which would not work both ways. We should be glad to get further light on this subject.



Channel Kept Open by Muskellunge.

What has been regarded as a peculiar phenomenon of nature was recently explained, says a Woodruff (Minn.) correspondent of the St. Paul Dispatch. Ever since Rice lake was frozen over it has been noticed that a narrow channel was always open at the entrance to the thoroughfare leading into Alder lake. Tom Miller early the other morning noticed that a thin coating of ice had formed during the night. While looking at it he was astonished to see a big muskellunge start from the east shore and, acting for all the world like a tug bucking heavy ice, break its way to the other shore. Reaching that, the big fish, which, according to Miller, must have weighed seventy-five pounds, started back, trimming up the rough edges of the channel. Mr. Miller says it was the most remarkable sight he ever witnessed.

Many prominent military men of Europe and America have expressed the opinion that the Japanese are the best of soldiers. This assertion may be somewhat exaggerated, but still their wonderful showing in the war with Russia prove them to be well trained and courageous. The wonderful cures made by the celebrated Hostetter's Stomach Bitters during the past 50 years prove it to be the most reliable family medicine in the world for indigestion, biliousness, general debility, kidney and liver troubles, female disorders, chills, colds or malaria. It's the most certain cure in the world for all throat and lung troubles. Guaranteed Bottles 50c and $1.00. Trial bottles free at Dr. H. C. Porter & Son's drug store.

The Messrs. Owen and Louie Knapp of Corvland, and Ted Adams of Smithfield, were guests at Edwin Wright's Saturday and Sunday.

The attendance at Laurel Hill Grange is increasing each week; all seem to enjoy the new hall and society of their neighbors and all seem to feel the meetings are good and very pleasant and profitable to one and all.

GROWTH OF TELEPHONES.

This is a nation of quick action. Once the telegraph was regarded as the means of swiftest communication. Now the telephone is rapidly replacing it for many purposes and does by far the greater volume of business. The amazing growth of telephoning in the United States is shown by a Government report for the year 1902, which was issued this week. There were more than five billion telephone messages. They exceed the number of letters sent through the mails in the same year by over 400,000,000. Telegraphy was completely outclassed by both post and telephone. There were 55 times as many 'phone "calls" as there were telegrams and the revenue derived by the telephone companies was considerably more than double the income earned by all the telegraph lines.

The number of telephone instruments in use two years ago was almost two and a third millions. More messages were sent in Ohio than any other State, the rural 'phone in some places there having reached a high degree of efficiency. A Towandian can now talk with a man in Texas, but as yet there are no transcontinental conversations. That there soon will be seems entirely certain.

The telephone is popular in America because it is quick. Telegraphy means a wait for the reply. A few minutes' talk over the 'phone now frequently settles matters of greatest financial and political importance. No other invention so clearly illustrates the tendency of this swiftly living age as the telephone. Wouldn't it have warmed the soul of that electrical sage, Ben Franklin, to have seen his pet "fluid" carrying a conversation from one instrument to another 2,000 miles apart?

The "typographical error" is frequently the source of a good deal of mirth, but not on the part of the writer in whose work it appears. It flourishes best in the daily newspaper and seems to take a fiendish delight in perpetrating itself in the most carefully written paragraphs; but it is not wholly unknown in the pages of the high class magazines, as the reminiscences of the late Laurence Hutton, now running in the Critic, attest. Mr. Hutton once wrote something about "Lord Palmerston's career," for Harper's, and was mortified on finding it printed "Lord Palmerston's cancer." In this form it still appears in the bound volumes of Harper's Magazine, an enduring monument to the utter depravity of the typographical error.—Scranton Truth.

Let Governor Pennypacker rejoice. He has one supporter. Rev. Edward Everett Hale, the distinguished author and Unitarian minister, in a letter, to the church paper of the Massachusetts Unitarians, says that Governor Pennypacker is the most sagacious Governor Pennsylvania has had since the days of Benjamin Franklin. He thinks that Governor Pennypacker's last message is the ablest state paper the country has seen in many a day. Governor Pennypacker is also supported by one newspaper, the Laporte, Sullivan county, News-Item, putting it lone shoulder to the wheel.

Judge Fanning addressed some very pertinent remarks to the applicants for liquor licenses Monday. He defined the law and he demands that it be lived up to. If Sunday liquor selling is wanted by some people they will have to get it sanctioned by the Pennsylvania legislature before it will be safe to sell on that day of the week. The court also strongly deprecated selling liquor to minors or to persons of known intemperate habits. The liquor traffic is one bad enough when managed within the strictest limits of the law. In the hands of law defying men it a curse beyond all others.

There are always a large number of citizens who neglect to attend primary elections, and they are generally the men who are the loudest in their objections to certain candidates nominated, after the election is over. The absurdity of a non-voter objecting to successful candidates is apparent. Every man who has a right to vote at the primaries should do so, and if he doesn't the best thing for him to do is to keep quiet after the work is done.—Pittston Gazette.

IS IT A REVOLUTION?

The world stands aghast at the terrible tragedy enacted in the streets of St. Petersburg on Sunday. A more dire and distressing tale of cruelty and wanton murder has not startled the civilized world since the bloody days of the French Revolution. Hundreds of poor workmen, who with their wives and children, had come to the palace of the Czar to plead with him for the redress of their wrongs, were shot down by his troops. They were clearly within their sacred rights. They had come to ask for relief from wrongs that had grown unbearable, for the reform of laws that were unjust and cruel, for better conditions of employment, and for enlarged political rights.

For centuries these wrongs have existed and the cry of the Russia's oppressed people against their hardship, has been unheeded by their rulers. Their prayers for justice and enlarged opportunities have been met by increased restrictions and greater cruelty, and every indication of unrest and rebellion has been crushed by a despotism that has had no parallel in recent history. This tyranny has borne its natural fruit. Discontent and disloyalty have spread until nearly the whole populace has become infected and it only needed the overt act to kindle the slumbering spark into a conflagration. The massacre of last Sunday may be the first outbreak of a long pent-up rebellion which may speedily grow into a revolution.

What will be the outcome of the present turbulent conditions in Russia no man can tell. The crisis is a grave one, and with war on her hands that is taking all her resources, the outlook is appalling. The present outbreak is the most formidable the government has ever faced and while its iron hand may be able to stifle it for the moment it cannot extinguish the hatred of its subjects, nor forever confine the smouldering fires of rebellion which the awful butchery of last Sunday has kindled anew.

The demands of the strikers may be ignored and the strikers themselves again shot down in cold blood, but that will not settle the issue they have raised. "Nothing is ever settled until it is settled right." The demand of the Czar's subjects is not merely for shorter hours and better pay, but it is a demand also for changes in legislative methods and policies which are revolutionary in character. Either the incipient revolution must be crushed— and with it all reformatory tendencies—or the government of the greatest empire in the world must be radically changed, if not overthrown. It can not be always what it has been—the most absolute and despotic autocracy the world has ever seen. The Russian people have borne for centuries their sufferings and the injustice of their rulers with unsurpassed fortitude, but the stupidity and wanton cruelty of last Sunday's slaughter of unarmed men and helpless women have changed the loyalty of thousands of devoted subjects of the "Little Father" into maddened and rebellious enemies, and has aroused a resentment throughout the empire that bodes no good to its rulers. Never has the ruler of the house of Ramanoff been confronted with so appalling a situation.

A SPLENDID CHOICE.

In the election of Senator Knox to the United States senate, Pennsylvania gains a representative in that body of high character and solid attainments, and the nation a senator who will honorably and creditably discharge all his duties. It is seldom that a man enters public life under such favorable circumstances. Chosen without opposition in his own party and elected by the legislature by an unprecedented majority, he comes to his high office free and untrammeled in the exercise of his duties. Although comparatively inexperienced in what is termed practical politics, his knowledge of public affairs is wide and thorough.

Bfore he accepted any office his eminent abilities and commanding position at the bar were indisputable. His transfer to the senate will not lessen his broad conception of duty and public responsibility that he has shown in the office of attorney general. We are sure Senator Knox will justify the high confidence that has been placed in him by the people. He has at once taken a commanding position in the senate where his influence and usefulness is sure to grow.

Governor Douglas, the shoe man who now is at the head of the commonwealth of Massachusetts, has begun right. Through his mediation the six months' strike in the Fall river mills has been declared off and the operatives have gone to work at the reduction over which they struck. Now the claims of the manufacturers and the employes will submitted to arbitration. Governor, like President Roosevelt, appears to be a man that his people trust.

"The meanest man on the face of the earth that was ever allowed to live is one who beats his wife," was the statement of Judge Woolbridge of New Brunswick, N. J., the other day when one of these offenders came before him. The judge was right.

TARIFF REVISION.

There is a great deal of discussion just at present by newspapers and people as to the advisability of changing the tariff. President Roosevelt has been conferring with the leaders of Congress about calling an extra session to consider the question, and while nothing has been definitely determined, it seems to be settled that there will be no extra session before next October, if at all.

No tariff is perfect, even for the time for which it is framed. Every tariff act, like legislation of many other sorts, is a compromise among diverse interests. It satisfies no one entirely, and it grows in spots less and less satisfactory as time alters conditions. However carefully drawn it is not designed to last forever. Changes brought about by invention, discovery, fashion, development and many other things, make many schedules unsuitable in the lapse of time. Revision then becomes necessary. Every friend of protection wants revision in such cases. But there is always a chance that when any revision at all is attempted, the whole system is taken up for discussion. One of the consequences of this tinkering has been that men in nearly all sorts of industries have been made uncertain regarding the outlook, and as a consequence enterprise is blighted for the time.

Such a result is probably inseparable from any attempt to alter and change the tariff; but the time will come, if it has not come already, when the party in power must take up this question. To say that it will not, is to say that conditions and the country's needs do not change. President Roosevelt recognizes this and after careful study of the situation, has asked Congress to determine whether the present time is not opportune for a change in the present law. He does not attempt to enforce his own views, but he believes that the course of Congress—whether it be for revision of the tariff or for letting it alone—should be determined after a hearing of all the diverse interests, and that if any changes in the law are determined upon, they should be made now and not delayed until just before another Congressional election. The McKinley tariff of 1890 beat the Republican party in the canvass for Congress in that year—not because the changes were in the wrong direction, or were especially harmful—but because they came only a short time before the election and, therefore, did not have time to reveal themeslves in actual operation, and because the opposition press misrepresented the effect which they would have. The work of revision, if determined upon, should be put through intelligently and expeditiously, without any partisan misrepresentation or any obstructive delay. The outlook is particularly bright for the Republican party, and that party will probably hold control of Congress for some time to come, but its leaders should not forget the lessons of past experience in tariff tinkering. All rash experiments in this direction should be carefully avoided.

THE above picture of the man and fish is the trademark of Scott's Emulsion, and is the synonym for strength and purity. It is sold in almost all the civilized countries of the globe.

If the cod fish became extinct it would be a world-wide calamity, because the oil that comes from its liver surpasses all other fats in nourishing and life-giving properties. Thirty years ago the proprietors of Scott's Emulsion found a way of preparing cod liver oil so that everyone can take it and get the full value of the oil without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, backward children, thin, delicate people, and all conditions of wasting and lost strength.

LIKE PRODUCES LIKE.

In the agricultural department at Cornell University some astonishing results have been produced in experimenting with timothy. By selecting the best heads of timothy, raising plants and setting them out, these results have been obtained: A plant nine months old, grew to four feet high, branched into eighty heads, some of which were eight inches long, and filled with seed. After being threshed it yielded one-half pound of well cured hay. If it pays to select the best ears for seed corn, why not exercise the same care with other seeds: It would not take much trouble to start plants in pots and then set them out in a garden bed, saving the best heads for the next year's planting. In a short time a farmer could have enough seed to sow a patch of ground and double his crop of hay. The plan is certainly worth trying, for it is by such methods that improvements are made to which no limits are set.

DOGS MUST BE CONFINED.

It is the opinion of the physicians of the Towanda board of health that the dog which bit several other dogs in Towanda showed unmistakable symptoms of rabies. They propose to protect the public and have passed a resolution that will be rigidly enforced. If owners of dogs wish them to remain alive they must confine them for the next 60 days or if they must be taken on the streets they must be muzzled and must be led by an attendant with chain or cord.

Rabies is a bad thing to have in any community. New Albany had a serious time with it recently and Binghamton and Owego did until they enforced the most severe regulations. This is what Towanda should do until all danger is passed. The time to do it now and not after more dogs and perhaps persons are bitten. Back up the board of health in every way. They have taken a wise and prompt course.

A legislative reapportionmetn bill, increasing the representation in the house of representatives from 204 to 207, was introduced by Representative McWhinney, of Allegheny, at Harrisburg this week. The bill gives Allegheny county eight additional representatives, Philadelphia, Luzerne and Lackawanna two each and Blair, Cambria, Clearfield, Fayette, Jefferson, Northumberland and Westmoreland counties one each. Adams, Bedford, Bradford, Bucks, Center, Chester, Clarion, Columbia, Crawford, Huntingdon, Indiana, Lancaster, Lycoming, Mercer, Montgomery, Schuylkill, Susquehanna and Wayne each lose one. There will, no doubt, be strenuous opposition on the part of the counties scheduled for a loss, of which Bradford is one.

A type of gasoline motor car for use on its Nebraska and Kansas branch lines has been adopted by the Union Pacific railroad, and a number of them will be installed immediately. The new car is about the ordinary size, one end being finished up for passengers, the other end as a baggage and freight car, and the motor being between the two. These cars are expected to develop sixty miles an hour. Only a motorman and conductor being necessary, the economy to the company is apparent. The gradual part electrification of railroads is an assured thing.

Among the decisions handed down by the Superior Court at Scranton last week was one sustaining the constitutionality of the juvenile court. President Judge Rice and Judge Porter, however, dissented from the decision of the majority of the court. The case can still be appealed to the Supreme Court, but it is not known what action will be taken. The law was attacked principally on the ground that it was defective in that it did not provide for judges to preside in the courts.

It is said that Congressman Connell of Lackawanna, who will retire from the office in March, will remain the recognized political leader of Lackawanna and some of the smaller adjoining counties. The same authority states that Deputy Attorney General Fleitz will be the active assistant of Mr. Connell in the management of the Republican politics in that section.

LIQUOR LICENSES.

Applications Came Before Court Here on Monday.

Monday was the time for hearing the applications for licenses to sell and bottle liquor in Bradford county and a total of 78 applications were made to the court of quarter sessions of which three were for bottlers' licenses, one for brewer's, eight for restaurants, nine for wholesalers and the remainder for hotel licenses.

When the time came for hearing the applications, Judge Fanning took occasion to give the dealers quite a full exposition of their rights and their restrictions and he sounded a note of warning in regard to violations of the latter. He discussed the rights of the wholesalers and retailers and made some forceful remarks upon the illegality of what have become too common methods which the law does not countenance. The infraction of the law in regard to selling liquor to persons visibly affected or of known intemperate habits was condemned as was that of furnishing liquor to minors, by sale or otherwise.

The court said that these provisions of the law were referred to that dealers might be fully informed of the restrictions under which they sell liquor. He said that this was done in kindness that the proprietors of the licensed places might not unknowingly or wilfully violate them. He said that the court and the people would expect that they would honestly and faithfully observe the law. The court stated that knowing the law, if they violated it, they would be held responsible for it.

Licenses Held Over.

The following applications were not granted for the reasons stated as follows: No. 6, remonstrance; No. 17, remonstrance; No. 30, new hotel and remonstrance; No. 62, new hotel and remonstrance; No. 78, remonstrance; No. 29, new hotel. Ex-Senator Lewis Emery, Jr., of Bradford, McKean county, has issued invitations to a dinner to be given in the Clover room of the Bellevue Stratford hotel in Philadelphia on Tuesday, Jan. 31, to the state senators of the sessions of 1883-85, and the officers, together with the newspaper men who reported those sessions of the senate. Hon. W. T. Davies of Towanda, was a member of the senate of 1883 and was lieutenant-governor in 1885. He was succeeded as senator in 1885 by Hon. J. K. Newell of Towanda, and these gentlemen have received invitations from Mr. Emery.

The friends of Mr. Davies will be pleased to learn that he is improving rapidly in the hospital in Philadelphia, and will probably be able to come home within a week.

Beside Mrs. Maynard she is survived by a daughter, Mrs. Libbie Blocher of Chicago, and one son, William Wattles of Rome.

He is survived by the widow and three children. He was a farmer and a nighly respected man. M. J. McMahon and W. H. Sullivan have been granted a franchise under the name of the Galeton Electric Heat, Light and Power company, to furnish electric light for Galeton and to operate a trackless trolley line. Athens Will Build Guard Bank.

The Athens borough council has at last let the contract for building the much discussed guard bank along the Chemung river in that borough. L. S. Stacey will build the dirt embankment at 54 cents per cubic yard and the borough will build its own concrete work. The lowest bid for the concrete was $5.74 per cubic yard.

Arrested at Wyalusing.

Rush Capwell was arrested in Wyalusing Friday by Chief Mulligan of Athens by virtue of a warrant sworn out by John Dunlap who charges him with larceny by bailee. The property in question being a horse valued at $40, which Capwell is accused of converting to his own use last August.

TEN PERSONS PLEADED GUILTY TO TAKING COAL.

Third Ward Residents Filled Bins From Lehigh Valley Cars.

Continued complaints of shortage of coal passing through Towanda culminated on Saturday in two tons being taken from a car assigned to an Ulster dealer. Detectives Hollon and Caskey conferred over the subject and as a result 14 warrants were sworn out before Justice of the Peace John H. Orcutt. The detectives in their search for the missing coal found a large quantity at ten different residences in the Third ward and when confronted by the officers the ten residents each pleaded guilty to stealing coal from the railroad company.

Each paid costs of $2.25 and amounts varying from 50 cents to $2.50 for the value of the coal. Some of the defendants admitted that they had not purchased coal from a Towanda dealer in over a year. At the price paid before the justice, however, it is probable that their patronage will now be transferred to a regular dealer.

MONROETON CASE.

William Camp Held on Charge of Aggravated Assault.

That votaries of the dance are sometimes the victims of unlooked for events was evidenced in Justice Meredith's office Thursday when William Camp was held to court in $300 bail on the charge of aggravated assault and battery. It is alleged that the night of a big dance at Monroeton, on Dec. 26, L. A. Johnston was standing on the sidewalk when Camp struck him over the head or neck, felling him to the ground and causing him to break his right ankle and to suffer other injuries.

Mr. Johnston had a number of witnesses who swore that they saw Camp strike Johnston but Camp had just as many who said that Camp had gone home when Johnston was struck. Justice will have to sift out the matter if the grand jury sends the case to court. Mr. Johnston still walks on crutches as the result of his accident. S. H. Smith, Esq., represented Mr. Johnston and the defendant was represented by W. P. Wilson. Mr. Camp furnished bail. The justice's office was crowded during the hearing.

CASE FROM POWELL.

Pupil of School Charged by Teacher With Damaging Building.

Robert Stranger of Powell was arrested by Constable Hollon on Friday on complaint of Paul Haverly of the same place who alleges that Stranger damaged the building of the public school at that place and is also guilty of petty larceny in removing from the buildings two picture frames.

Stranger is a pupil of the school in which Haverly is the teacher. There seems to have arisen some trouble between the teacher and the scholars and there are a number besides Stranger who are alleged to be implicated in it. The other night some one broke in the school building and took two clocks away. The defendant in the case mentioned, however, is not charged with the latter offense.

Minister Arrested.

There was great excitement in Wellsboro recently over the arrest of Rev. N. L. Reynolds, pastor of the First Baptist church of that place, on the charge of cruelty to his horse. Mr. Reynolds is nearly 80 years of age and is held in the highest esteem, having spent much of his life in Tioga county. The hearing was held in the court house and the court room was crowded with people and sentiment was up to about the "top notch." It soon developed that there was no evidence against the good man, and the whole thing fell flat.

Died at Wilkesbarre.

Miss Nellie Foster, the fifteen year old daughter of Clayton Foster, died at the family home at Wilkesbarre on Sunday of pneumonia. Mr. Foster is a former resident of Towanda and has many relatives who will sympathize with him in the death of his daugh- Mrs. Man Foster, the girl's grandmother, went from Towanda to attend the funeral.

Had Bad Fall.

Mrs. John Finan fell on her way to church on Sunday and suffered a fracture of the neck of the hip bone. The injury to Mrs. Finan is another in a long series of falls that Towanda people have received lately on account of the icy walks. Drs. T. B. and T. Benj. Johnson, attended Mrs. Finan.

ARTICLE FROM VETERINARIAN ON DISEASE OF RABIES.

Contains Some Excellent Information on Question.

Now that a case of what is supposed to be rabies has developed in Towanda it will be well that all know of that prevalent and dreadful disease for from it not only many lives are lost yearly in nearly every country, but serious loss of live stock occurs as well. Rabies has been known from remote times, Aristotle in 326 B. C., having written "Dogs suffer from madness which puts them into a state of fury and all the animals that they bite when in this condition become also attacked by rabies." The term "hydrophobia" is often applied to this disease and means "fear of water," a symptom sometimes seen in man yet not always and one that is not at all characteristic of the disease as mad dogs will often lap water and even swim streams. Wolves and foxes are often affected with rabies. Its first appearance in America is recorded as at Boston in 1768. What is known of this disease is due to the efforts of Pasteur and his co-laborers, Nocard and Roux more that all other investigators.

The census of 1890 reported 143 deaths in man from rabies and it is known that over 230 deaths have occurend since 1890 in this country. Rabies is thought to be due to a bacillus yet up to the present time all efforts to isolate it have failed. In animals the infection is found mostly in the saliva but it is also in the nervous system and some of the glands besides the salivary. It is calculated that from 20 to 30 per cent of animals bitten by mad dogs develop the disease, and it has been found that bites through the clothing or bites on a long haired dog are not so apt to infect as the virus is wiped off somewhat before coming to the flesh. The average period of incubation (or the time elapsing after being bitten before the disease appears) is as follows:

In man 40 days.
In dogs 21 to 40 days.
In horses 28 to 50 days.
In cows 28 to 56 days.
In cats 14 to 28 days.
In pigs 14 to 21 days.
In goats 21 to 28 days.
In birds 14 to 40 days.

It is shown by statistics that dogs become mad in all seasons of the year and it is thought that as dogs are at large more during the warm months the disease is found more then.

Erroneous Ideas of Rabies.

There is a wide spread belief that if a dog which has ever bitten a person goes mad the person is also liable to go mad. This is no doubt due to the fact that virus is often in the saliva for a number of days before the symptoms appear, and some persons become infected in this manner. The bite of a dog not mad cannot produce rabies. From the fact that only 20 to 30 per cent of dogs bitten by a mad dog become infected it will be seen that the practice of destroying every dog that is bitten is entirely uncalled for. They should be confined for a sufficient time to be sure the disease will not develop, however.

THREE YOUNG MEN RAN AWAY FROM COUNTY HOUSE.

Two of Them Caught Same Night and One Still at Large.

On Sunday night between 11 and 12 o'clock three young men inmates of the county house at Burlington got out of their rooms by going down the fire escapes. The runaways were Fred Johnson, aged 19 of Towanda, William Shaylor, a relative of the well known Mary Shaylor, of Towanda, and Earl Barber, aged 23, of Sayre.

As soon as the fact was known that the trio had escaped Supt. Putnam set out to recover his charges. About a mile from Burlington he found Johnson and Shaylor in a barn and they returned with him. Barber had left the other boys and gone toward Mountain Lake and it is supposed that he may have gone to Sayre where relatives of his live.

Johnson is the same young man who several years ago ran away from the county house with several others and floated down Sugar Creek on a raft that they constructed. He got drenched but as he had been told by the other boys that he would be hanged if he went back to the county house he stayed in a barn for some days and as a result one of his feet and lower legs were frozen and had to be amputated.

He is also the same young man who raised a rumpus on Charles street here some months ago because his mother, Katy Jane Johnson, lived with Conrad Knowles as a housekeeper. There was several shots fired, but the grand jury ignored the indictment against Fred. Shaylor has been an inmate of the county house several times. He is an able bodied young man of about 19 years with no regular occupation. Barber has had the bad habit of jumping on and off moving trains and is not bright mentally. Officers are on the lookout for him.

Expositions and Toothpicks.

The success or failure of the forthcoming Lewis and Clark and Jamestown expositions will hinge upon the activity or negligence of their respective publicity departments. Preparations for exploiting the plans of these great enterprises in the daily press cannot begin too soon, nor can the advertising be conducted on too large a scale. To focus the attention of a nation and hold it is a gigantic task, and without newspaper co-operation it would be impossible. With newspaper aid success is certain, whether the enterprise be the promotion of a national exposition or the sale of wooden toothpicks.—Philadelphia Record.

Interesting Old Papers.

NEW ALBANY DOG.

One Died Here on Wednesday Night of Last Week.

On Saturday a dog collar was handed to Chief of Police Miller which was removed from the neck of a black and tan dog which died under the barn of Porter Northrup near the toy factory on Wednesday night of last week. The collar bore the marks: "New Albany Borough, Dog Tax, 1904, No. 9."

As the dog was taken sick here and died Chief Miller thought it should be investigated as there were several cases of rabies at New Albany some months ago. He found that the dog belonged to Isaac Turner and that it had left home about a week ago for some unknown reason. He was also informed that there had been six cases of rabies among dogs and two among cows in New Albany borough but that there had been none among canines during the last three months. Mr. Turner took the dead animal home with him.

MORE HERDS TESTED.

Cows in Two Farms Found to Be Affected.

On Jan. 17, Dr. R. G. Rice completed the tuberculin test of 15 head of cattle for Pratt Chaffee of Hornbrook and 15 head for Leander Robinson of the same place. In Mr. Robinson's herd six head were found tubercular and in Mr. Chaffee's one was found affected with this disease. The condemned animals were at once isolated and the milk from them will be destroyed until the arrangements can be made with the state veterinarian to have them disposed of. The milk from all of these herds is sold in Towanda.

The court thereupon revoked the original sentence and imposed a new one, sending Dalton to the Eastern penitentiary at solitary confinement and hard labor for a period of four years and six months. A fine of $500 and costs of prosecution was included.

An Example of "Strenuous Life."

While Rev. Reynolds may not be an advocate of the "strenuous life," he gave an example of it last Sunday. It will be remembered that the storm last Sunday amounted almost to a blizzard, but that did not stop Mr. Reynolds. He arrived in town somewhat tired, but was in time for services.—Galeton Dispatch.

DISFIGURED WITH ECZEMA

Under Physicians Five Months. Went from Bad to Worse.

CURED BY CUTICURA

Wonderful Change in One Night. In a Month Face Was Clean as Ever.

"I was troubled with eczema on the face for five months, during which time I was in the care of physicians. My face was in such a condition that I could not go out. It was going from bad to worse and I gave up all hope, when a friend of mine highly recommended Cuticura remedies. The first night after I washed my face with Cuticura Soap and used Cuticura Ointment and Cuticura Resolvent it changed wonderfully, and continuing the treatment it removed all scales and scabs. From that day I was able to go out, and in a month my face was as clean as ever."
THOMAS J. SOTH, 317 Stagg St., Brooklyn, N. Y.

THE AGONIZING
Itching and Burning of the Skin

As in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants, and anxiety of wornout parents, as in milk crust, tetter and salt rheum—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such stands proven beyond all doubt. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures of the civilized world. Absolutely pure.

Sold throughout the world. Cuticura Resolvent, 50c. (in form of Chocolate Coated Pills, 25c. per vial of 60), Ointment, 50c., Soap, 25c. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Boston, 137 Columbus Ave. Potter Drug & Chem. Corp., Sole Proprietors.

REPUBLICAN DELEGATES.

Last Presidential Vote Will Change Number in Many Places.

Under rule 26 of the Republican party of Bradford county, every presidential year there is a reapportionment of the number of delegates to which each election district in the county is entitled for the reason that the number of delegates is one to every ratio of fifty Republican votes cast and one for a fraction of a ratio over a full ratio. Under this rule County Chairman J. Roy Lilley has just completed the new apportionment of delegates and it is found in the Republican call which has been issued for the convention to be held here on Thursday, Feb. 2, in Towanda for the election of four state delegates.

The gains made are in the following districts: Barclay, 1; New Albany borough, 1; Sayre borough, first ward, 1; second ward, 1; third ward, 1; fourth ward, 2; Ulster township, first district, 1.

Districts which lose delgates are as follows: Albany township, 1; Armenia, 1; Canton township, second district, 1; Columbia township, first district, 1; Franklin, 1; Granville, 1; Herrick, 1; LeRoy, 1; Litchfield, 1; Monroe township, first district, 1; Monroe township, second istrict, 1; Orwell, 1; Sheshequin, 1; Smithfield, 1; South Creek, 1; Springfield, 1; Troy borough, 1; Tuscarora west, 1; Warren, 1; Windham, 1; Wysox township second district, 1.

This is a total of eight delegates gained and 21 lost or a net loss of the number of delegates in the convention of 13.

Mix on Jan. 18 and held for his appearance before the United States district court at Scranton on the fourth Monday of February. Thornton furnished bail in the sum of $500, Charles Stevens being his surety.

Sergius and Alexis Rumored to Have Already Set Out For the Frontier. Admiralty Works at Sevastopol on Fire—Moscow Plans a General Strike to Begin Wednesday—Soldiers Said to Be Getting Ready to Join the People. Details of Sunday's Rioting — No Trustworthy Estimate of the Number of Victims.

St. Petersburg, Jan. 24.—While the city is quiet, there is still extreme tension in St. Petersburg, but from Moscow comes news that disorders have begun there, and the lull here may be only the precursor of another storm. Not a single mill or factory has started up. This is very significant as indicating that the workmen are being supplied with the sinews of war. None has applied for pay at the factories, although some have two weeks' pay coming to them.

The great admiralty works at Sevastopol were badly damaged on Monday morning by a fire believed to have been of incediary origin. The railroad station at Warsaw was partially burned, and a portion of the Warsaw and Baltic railroad was torn up.

Sunday was a day of unspeakable horror in St. Petersburg. Following the refusal of the czar to hear the appeal of the 100,000 workmen came a hail of shot which mowed down hundreds and turned the cry for an audience into screams for vengeance.

Leading on his host of strikers, the priest Gopon, holding aloft the cross and clad in his golden vestments, marched boldly up to the phalanx of troops and into a storm of shot. Half a hundred of his followers fell at the first volley. He himself, spared by the soldiers, escaped.

Five hundred is a modest estimate of those killed or wounded at the Narva gate, the Moscow gate, at various bridges and islands and at the Winter palace. There are exaggerated figures placing the number as high as 5,000, while the Official Messenger places the dead at 76 and the wounded at 233.

Women Shot Down.

Many wives and children were shot down by the side of husbands and fathers.

All the troops, with the exception of the Moscow regiment, which is reported to have thrown down its arms, remained loyal and obeyed orders.

The military authorities had a firm grip on every thoroughfare. At daybreak guard regiments, cavalry and infantry, held every bridge across the frozen Neva, the network of canals and the gates from the industrial section, while in the Palace square, as the storm center, were massed dragoon regiments, infantry and Cossacks of the guards.

Barred from the bridges and gates, men, women and children crossed the frozen river and canals by twos and threes, hurrying to the Palace square, where they were sure the emperor would be present to hear them.

But the street approaches to the square were cleared by volleys and Cossack charges. Men and women, infuriated to frenzy by the loss of loved ones, cursed the soldiers while they retreated.

Men harangued the crowds, telling them that the emperor had failed them and that the time had come to act. Strikers began to build barricades in the Nevsky prospect and at other points, using any material that came to hand and even chopping down telegraph poles.

Toward 8 o'clock in the evening the crowds, exhausted, began to disperse, leaving the military in possession. As they retreated up the Nevsky prospect the workmen put out all the lights.

The little chapel at the Narva gate was wrecked.

On Kaminostov island all the lights were extinguished.

A General Killed.

Every officer wearing the uniform of the emperor who was found alone was mobbed. A general was killed on the Nicholas bridge, and a dozen officers were seized, stripped of their epaulets and deprived of their swords.

There was a dramatic scene at the Narva gate when Father Gopon, in golden vestments, bearing aloft an icon and flanked by two clergymen carrying religious banners, approached at the head of 8,000 workmen.

Troops were drawn up across the entrance. Several times an officer called upon the procession to stop, but Father Gopon did not falter. Then an order was given to fire, first with blank cartridges. Two volleys rang out, but the line still did not waver.

Then an officer gave the command to load with ball, and the next volley was followed by the shrieks of the wounded. As the Cossacks followed up the volley with a charge the workmen fled, leaving a hundred dead and wounded.

The soldiers deliberately spared Father Gopon. One of the clergymen by his side was wounded, but he escaped untouched and hid behind a wall until the Cossacks passed. He was then spirited away by workmen.

Harrowing Scenes In Palace Square.

The most harrowing scenes of the day were around the Palace square. Beyond the semicircular building of the general staff is a wide space leading to the Moikal canal, and beyond this stands the headquarters of the St. Petersburg military district. From this building the Grand Duke Vladimir issued orders for the military preparations, and from it he directed operations.

The square presented the appearance of a military encampment. Several companies of the Pavlovsky and Preobrajensky guards had piled their arms, and the men sat around campfires or stamped on the snow to keep warm. Beyond the infantry stood squadrons of the Chevalier guards and the Horse guards.

A whole row of ambulances was drawn up near the palace as a grim reminder of the business on hand.

Meanwhile pickets were stationed at all the entrances of the palace, and cavalry patrols kept promenaders moving.

The crowd of strikers in and outside the Admiralty gardens continued to grow hourly, swelled by arrivals from the Nevsky prospect, which debouches upon the boulevard skirting the gardens.

The strikers manned and held a small edifice at the corner of the gardens and poured out constant objurgations and reproaches at the troops. It was in vain that officers requested them to disperse.

"We have come to present our homage and grievances to the emperor."

"Let the emperor come out and hear us. We do not wish to do harm."

"Long live Nicholas II.! If he only listens to our grievances we are sure he will be just and merciful."

"We cannot longer endure our sufferings. Better die at once and end all!"

Such were the cries repeatedly heard.

Many strikers brought their wives and children. "You soldiers are our brothers. You cannot shoot these little ones!" they exclaimed. But as the pickets and patrols continued driving off the people the demonstrators began to give way, and the bitterest insults and oaths, in which the Russian vocabulary is particularly rich, became frequent.

The order came at 1:30 p. m. to clear off the crowd. Two companies of the Preobrajensky guards, of which the czar himself was formerly colonel, which had been standing at ease in front of the palace, formed up and marched at double quick toward the fatal corner.

Events followed with awful swiftness.

The commanding officer shouted: "Disperse! Disperse! Disperse!"

Many in the crowd turned to flee, but it was too late. A bugle sounded, and the men in the front sank to their knees, and both companies fired three volleys, the first two with blank cartridges and the last with ball.

A hundred corpses strewed the sidewalk. Many women were pierced through the back as they were trying to escape. One boy of thirteen had his skull pierced and rent by bullets. Splashes and streams of blood stained the snow.

Only a few of the victims remained alive, for the volley was fired at twenty paces, and the ambulances had little to do.

The police recruited a large number of sleighs to carry off the dead.

St. Petersburg, Jan. 23.—No serious clashes between the strikers and the troops occurred, though the Cossacks of the guard dispersed a growing crowd in the Nevsky prospect without bloodshed.

It is rumored that the czar will issue a manifesto declaring St. Petersburg to be in a state of siege.

The emperor is completely prostrated by grief. He is represented to be almost in a state of collapse over the situation. In the meantime everything awaits his decision. All the schools are closed.

Every window in Grand Duke Sergius' St. Petersburg palace was broken by a mob during the night.

The police have closed all the gunsmiths' shops, and firearms and other weapons have been removed from the windows and locked up in the cellars.

The city is filled with sensational rumors, among them being one that Grand Dukes Alexis and Sergius are already on their way to the frontier.

M. Pobedonostseff, procurator general of the holy synod, is seriously ill.

No newspapers have appeared since Friday except the Official Messenger, containing the government decrees, which is printed under military protection at the office of the State bank, where the bank notes are issued. Official accounts of Sunday's affair were posted on all the bulletin boards. Strikers who came to read spat upon them.

WORK STOPPED AT KOVNO.

Great Strike Extends Southward to the Russian Frontier.

Kovno, Russia, Jan. 24.—Work has been stopped at all the factories and railroad shops here.

Kovno is the capital of a Russian government of that name, having Courland on the northeast, Vilna on the southeast, Russian Poland and Prussia on the south and southwest and with a narrow strip touching the Baltic sea at Memel. The population of the government is about 1,800,000. Kovno, the capital, which is on the railroad to Berlin, has about 500,000 inhabitants. It is an important entrepot for trade with Prussia and the neighboring provinces of Russia.

Strike Grows In Moscow.

Moscow, Jan. 24.—The strikers here at noon totaled 10,000. A body of strikers at noon forced their way into the works of the firm of Hopper and compelled 500 men to join the strike. Simultaneously factories and other works were closed throughout the districts adjoining Daniloff street.
